RIDER TRAINING COURSES

2015

- Get your motorcycle license
- Learn expert motorcycle techniques
- Ride better. Ride smarter. Ride longer.

www.motorcyclesafety.org

MINNESOTA MOTORCYCLE SAFETY CENTER (MMSC)

The Minnesota Motorcycle Safety Center (MMSC) has served Minnesota riders for 30 years with affordable, high-quality professional training and education. Instructors are Motorcycle Safety Foundation (MSF)-certified and dedicated to building and improving riding skills. The MMSC offers a wide variety of courses at 30 locations for riders of all skill and experience levels.

Basic Rider Course (BRC) \$180

This 14.5 hour course is the best way to earn your motorcycle license. No experience necessary. Training motorcycles are provided. It is also a course recommended for returning riders who have not been on a bike in a while.

Introduction to Motorcycling/Scootering \$55

This four hour course is for true novices who want hands-on instruction with motorcycle controls before taking the BRC. This course is offered at Brainerd and White Bear Lake. Scooters are available at White Bear Lake.

Moped Course \$35

This 4.5 hour classroom-only course meets state requirements for a moped permit and is available at all MMSC training sites.

Basic Rider Course 2 (BRC2) \$55

In this five-hour course riders provide their own bike or scooter. (State training motorcycles are available at White Bear Lake). It will build upon existing skills and knowledge. The course is available at Rosemount, White Bear Lake and many Greater Minnesota locations for individual enrollment. Group training is available by request at all locations.

Civilian Police Motorcycle Course (CPMC) \$75

This advanced eight hour course is for experienced riders. The course uses the same techniques designed to train and keep police motor officers safe in any riding or traffic situation. Riders provide their own bikes and should have at least three years or 12,000 miles of experience to take this course.

This course is offered at Brooklyn Park Hennepin Technical College and Willmar Ridgewater College.

CPMC — Level 2 \$50

This advanced course is five hours and adds four new drills to the already challenging format. Completion of CPMC is required to take this course.

Motorcycle Road Guard Certificate \$30

In this three-hour course riders will learn how to stop and control traffic for motorcycle group riders. The course features classroom and practical training at a live intersection. This course is available at Detroit Lakes, Duluth, Marshall, Rochester and Rosemount locations. Group training offsite is available by request.

3-Wheel Basic Rider Course (3WBRC) \$150

This is a beginning eight-hour course that provides classroom and on cycle training with an emphasis on developing the skills required to safely manage a three-wheeled motorcycle. Riders must provide their own sidecar rig or trike. Courses available at Detroit Lakes, Rochester and White Bear Lake.

3-Wheel Experienced Rider Course (3WERC) \$125

The experienced course is a four-hour course for riders with three-wheel experience. Riders provide their own sidecar rig or trike. Riders should be familiar with motorcycle controls, straight-line riding, turning, shifting and stopping. Courses available at Detroit Lakes, Rochester and White Bear Lake.

Basic Motorcycle Maintenance \$65

This course teaches motorcycle maintenance basics. This course is offered at Rosemount.

State Skill Test Waiver

If you are 18 or older and have a valid Minnesota driver's license and motorcycle instruction permit, the state skill test for your motorcycle endorsement will be waived if you successfully complete the BRC. You must have a motorcycle instruction permit in possession when taking the BRC to receive your motorcycle endorsement. Successful completion means 100 percent attendance and passing the skills test. Riders under 18 are required to take the BRC before obtaining a motorcycle permit. Riders who have failed a state and/or MMSC skill test twice are not eligible for the State Skill Test Waiver.
